

Electric Steamer

- Automatic Electrical Steamer. Available in various versions for upto 12 irons.
- Most advanced technology incorporating float switch controls for continuous steaming unaffected by voltage variations.
- Unique pressure vessel with optional built in condensate separator for completely dry steam.
- Modular operation allows right amount of steam at no extra power consumption.
- Detachable stainless steel elements are protected by thermostats.
- Various safety devices for high pressure control, built in excessive steam release valve & Dry cut out systems & Buzzer.

Trolley

For Hotels, Garments & Commercial Laundry
Standard & Customized Sizes.

ALS

Imported All steam iron without element using steam to heat the base. Releases steam by pressing lever when desired. Heat Proof handle, steam volume adjustment, Wt. 1.75 kgs

FERRO

Imported electric steam iron, Ergonomically designed base plate with long passage for optimum steam heating to provide absolutely dry steam. Antishock handle. Zero maintenance. Teflon shoe for shine prevention. 1.75 kg wt. 800 W.

Portable Steamer

For instant pressing

- Portable Steam Ironing System.
- High pressure Steam can be generated any time by simply plugging to single phase point.
- Incorporated with advance features & 4 level safety mechanism.
- Buzzer to indicate water level.
- High pressure steam
- Built in drainage system to avoid scale formation.
- Seamless drawn stainless steel shell.
- Optional : Stainless Steel Body.
